## Type XB2FC

The design and patent protected XB2FC 2-hole flange bearing house is the optimal choice for machinery and equipment that has to comply with strict hygiene requirements.

The XB2FC bearing house is mounted parallel to shaft direction.

The XB2FC is designed to provide easy access for cleaning from all angles. We recommend that you choose a bearing house with NGI's hygienic nuts and bolts for maximum hygienic safety.

To ensure an EHEDG, 3-A, and USDA solution, our bolts and nuts are required for mounting. Furthermore, the USDA certification also requires the use of spacers..
