## Type XBTBC

The design and patent protected XBTBC block short-base bearing house is the optimal choice for machinery and equipment that has to comply with strict hygiene requirements.

The XBTBC bearing house is mounted perpendicularly to shaft direction.

The XBTBC is designed to provide easy access for cleaning from all angles. We recommend that you choose a bearing house with NGI's hygienic nuts and bolts for maximum hygienic safety.

The XBTBC meets the requirements of EC 1935/2004, EC 10/2011,EC 2023/2006 and FDA. To ensure an EHEDG, 3-A, and USDA solution, our bolts and nuts are required for mounting. Furthermore, the USDA certification also requires the use of spacers.
