Bolt BXH M6 x 16 x 16, AISI 316, Blue EPDM

ARTICLE NUMBER 1019718

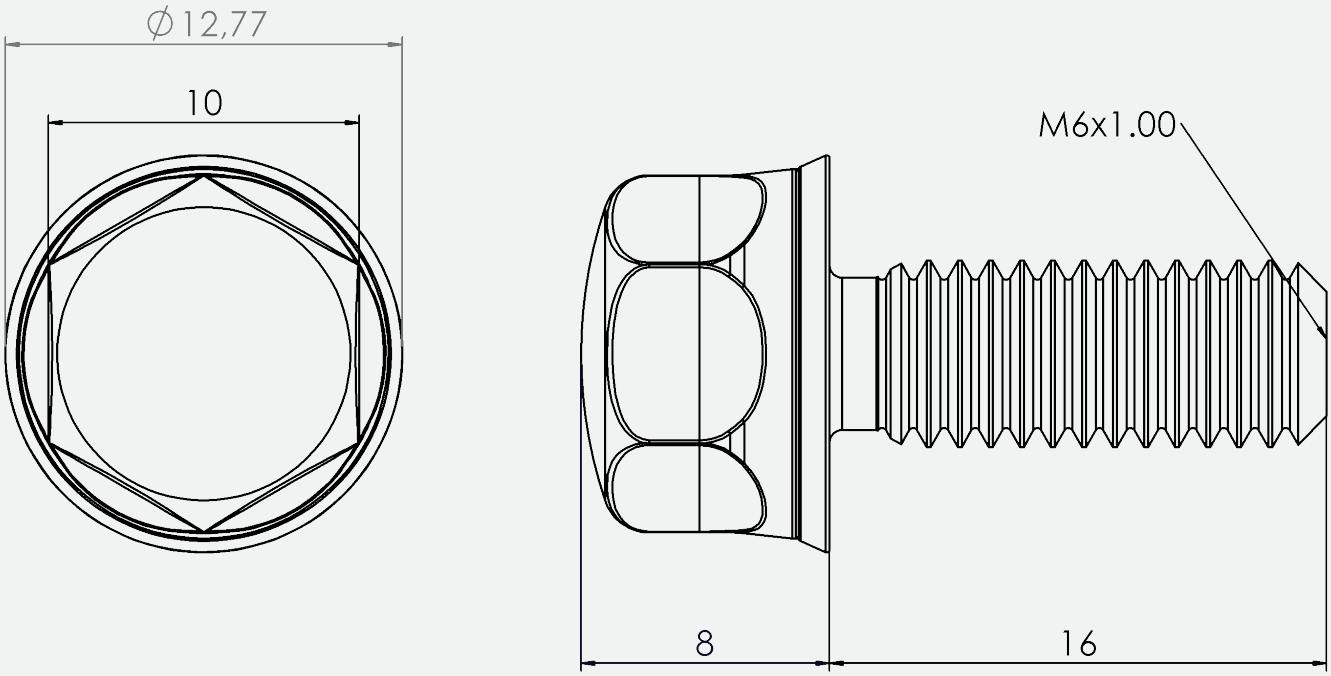

NGI can offer certified hygienic BXH bolts with blue sealings. The sealing blocks out water and bacteria and prevents a non-hygienic metal-to-metal assembly. The bolts have self-draining surfaces with a maximal roughness of 0.8 µm Ra. The design of the bolts does not deviate from the sizes of current standard bolts. Therefore, wrench sizes, thread heights etc. all remains the same making it very easy to upgrade and replace standard bolts. This is the right choice of bolts to be used on all machinery in all certified hygienic wash-down environments.

- Certified in accordance with 3-A (RPSCQC)
- Certified in accordance with EHEDG hygienic standard TYPE EL - CLASS I AUX
- Minimizes cleaning time and water consumption
- Surfaces with a maximal roughness of 0,8 µm Ra
- Available in sizes M4-M27

Technical specifications

Thread size	M6	
Thread standard	Metric C	
Sealing material	Blue EPDM	
Drawing no.	NGI 265182	
Country of origin	DK	
Net weight	8 g	
Thread length	16 mm	0.63”
Flat width	10 mm	0.39”
Bolt length	16 mm	0.63”
Head height	8 mm	0.31”
Outer diameter	12.77 mm	0.50”
Max tightening torque	8 Nm
